<b>,</b>	25X1 SECRE1,
8.	On 7 December, about 500 men wearing red-bordered black epaulets were quartered in the Horn Kaserne. About 40 tanks or SP guns were in the barracks area. On 1 December, JS-1 tank 1917 entered the installation from the direction
25X1	of Nuhnen. On 7 December,left the installation toward Westkreuz - Rosengarten.
9 <b>.</b> 25X1	On 7 December, about 200 men wearing red-bordered black epaulets were quartered in the Ziethen Kaserne.   left the installa-
25X1 <sub>25X1</sub>	tion toward Markendorf. 25X1
10.	After detraining at Frankfurt/Odem on 24 November, about 600 men wearing red- bordered black epaulets, about 50 percent with tank, artillery and motor transport insignia and about 50 percent without insignia, marched to the Horn Kaserne. On 25 November, about 350 men assembled for a roll call in the barracks
25X1	yard. On 28 November, left the installation for driving
25X1	exercises on the training ground west of the barracks installation, while about 50 men received combat training in this area.   left the installation toward the city.
25X1	Comment. From previous information it is concluded that all sources, particularly the first source, underestimated the number of troops in the installa-
25X1	tions, while there apparently was no change of the assumed distribution of the individual billets to the units stationed at Frankfurt/Oder.  The last source, in the reference report of early November, had propably reported the quartering of troops in the cantonment of the Horn Kaserne under the personnel.
	exchange program.
